Subject: EDITED Copy for West Lake Update -- Phone Calls from Republic Services

EPA Region 7 has become aware that some Missouri residents may have recently received telephone calls regarding the West Lake Landfill Superfund Site, asking those residents if they believe the site's radiologically contaminated materials should remain in Bridgeton. Some residents have reported that the caller claims to be representing EPA.

These calls are not originating from, nor are they authorized by, EPA.

EPA has determined that a group known as the Coalition to Keep Us Safe, <http://coalitiontokeepussafe.com/>, funded by Republic Services, is the organization making these calls.

These calls should begin with a clear representation that the call is being made on behalf of the Coalition to Keep Us Safe. If you receive a call and clear representation is not made that the call is on behalf of the Coalition to Keep Us Safe, or if the caller claims to be calling on behalf of EPA, please contact Ben Washburn immediately at 913-551-7364, washburn.ben@epa.gov. Please try to note the date and time of the call, as well as the name of the caller and any other information that you may be able to provide.
